

<CO₂ Capture and Utilization Division>
<I²CNER International Workshops>

<Date> 1:00 pm - 5:25 pm, 2nd February 2018
 <Venue> Seminar room 3105-6, Center Zone Building 3, Ito Campus, Kyushu University
 <Language> English
 <Theme> Challenge in Membrane Science

<Program and Speaker>

Time	Program and Speaker
1:00-1:10	Opening remarks Prof. Shigenori Fujikawa (I ² CNER, Kyushu University)
1:10-2:00	Prof. Jong Hak Kim (Yonsei University) Title: TBD
2:00-2:35	Prof. Masakoto Kanezashi (Hiroshima University) Title: Pore size controllability and gas permeation properties of sol-gel derived amorphous silica membranes
2:35-3:10	Prof. Masamichi Nishihara (Kyushu University) Title: TBD
3:10-3:30	Coffee break
3:30-4:00	Prof. Satoshi Kodama (Tokyo Institute of Technology) Title: TBD
4:00-4:30	Dr. Masahiro Seshimo (Research Institute for Innovative Technology for the Earth) Title: TBD
4:30-4:55	Dr. Roman Selyanchyn (I ² CNER, Kyushu University) Title: TBD
4:55-5:20	Prof. Ikuo Taniguchi (I ² CNER, Kyushu University) Title: Polymeric membranes for negative carbon emission
5:20-5:25	Closing remarks Prof. Shigenori Fujikawa (I ² CNER, Kyushu University)
