

Kyushu University Energy Week 2026

Kyushu University held “Kyushu University Energy Week 2026” over five days from Monday, January 26 to Friday, January 30, 2026.

Marking its 10th anniversary, this year’s event was held under the theme of “Energy Intelligence Beyond Borders: The Future Supply Chains in a New Era of Global Competition.”

We invited distinguished speakers from Japan and abroad and organized various events in collaboration with energy-related organizations both inside and outside the university. Prior to the main event, related programs were also held, including the “International Hydrogen Energy Development Forum & HYDROGENIUS SYMPOSIUM 2025” hosted by the Research Center for Hydrogen Industrial Use and Storage (HYDROGENIUS), as well as the “I²CNER–OIST Joint Symposium,” co-hosted by the International Institute for Carbon-Neutral Energy Research (I²CNER) and the Okinawa Institute of Science and Technology (OIST). Throughout the week, approximately 1,200 participants from universities, research institutions, industry, and government bodies in Japan and overseas attended the events, and the program concluded successfully.

Opening Remarks by President Tatsuro Ishibashi

▼Platform of Inter-/Transdisciplinary Energy Research (Q-PIT)▼

(Jan. 26 Q-PIT Plenary Session, Kyushu Decarbonization Study Group (Q-DeCS) Corporate Awards Ceremony)

Lecture by Professor Todo of Waseda University

Lecture by Distinguished Professor
Kagawa of Kyushu University

Remarks by Vice President Kazunari Sasaki

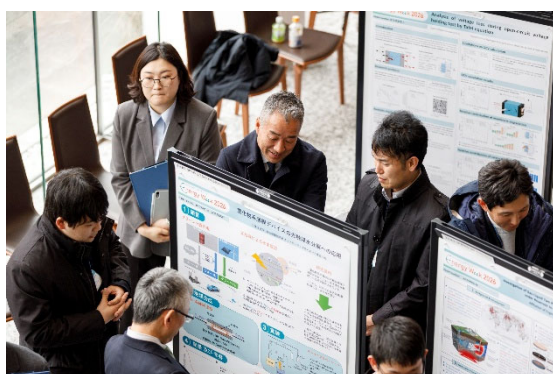

Q-DeCS Corporate Award Ceremony

(Jan. 26 Q-PIT Focused Session A)

Lecture by Professor Wakamiya of Kyoto University

Poster session

Q-PIT Poster Award recipients

(Jan. 27 Q-PIT Focused Session B / Collaboration Forum for Renewable Energy)

Opening remarks by President Ishibashi

Lectures in progress

Closing remarks by Executive Vice President of Kyushu University Tanimoto

Collaboration Forum for Renewable Energy

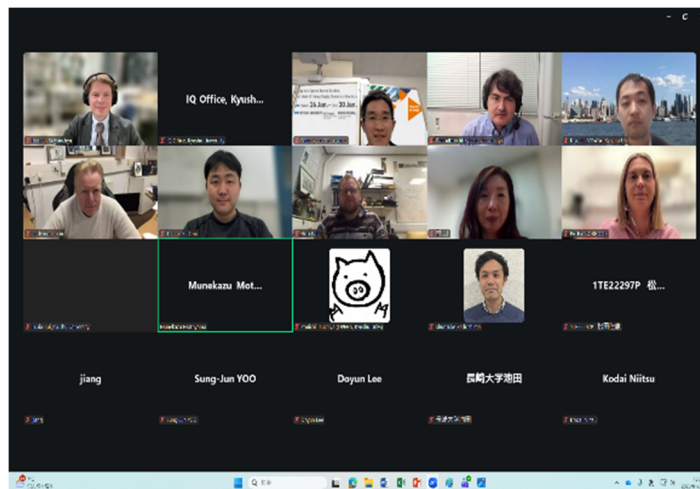

(Jan. 27 Q-PIT Focused Session C)

Lecture by Mr. Umer of Bloomberg NEF

Presentation by Q-PIT Module head

Joint Session with Durham University

▼International Institute for Carbon-Neutral Energy Research (I²CNER)▼

(Jan. 26 I²CNER Annual Symposium)

(Jan. 27 I²CNER Thrust Workshop)

(Jan. 28 I²CNER Center for Energy Systems Design (CESD) Workshop)

Opening remarks from I²CNER Director Ishihara

I²CNER Annual Symposium

Participants of I²CNER Annual Symposium

▼Institute of Systems, Information Technologies and Nanotechnologies (ISIT)▼
(Jan. 26 Circular Economy Seminar)

Lecture in progress

▼Research Center for Hydrogen Industrial Use and Storage (HYDROGENIUS) ▼
(Jan. 27 Hydrogen Forum in Kyushu 2026)

Lecture in progress

▼Q-PIT, Integrated Initiative for Designing Future Society (In²FS) ▼

(Jan. 29 Q-PIT FCVI project & In²FS Think Tank Unit and Decarbonization Unit Joint Symposium)

Opening Remarks by Executive Assistant to the President of Kyushu University Omoto

Lecture by Mr. Fukuda from Sumitomo Mitsui Trust Bank, Limited

Lecture by Mr. Fujii from SoftBank Corp.

Closing Remarks by Executive Vice President of Kyushu University Sonoda

Closing summary session
